Pitchboard:

- **Target Audience**: Those who are looking for people to hire- I can link them this website and they can get a basic understanding of my personality/skills

- **Website Purpose**: The website's main purpose is to be a way to display my resume/basic skills about me.

- **Design Style**: I want to use the color palette below, earthy tones, simple fonts, etc

Wireframes:

You need wireframes for 3 pages:

- **Homepage**: Navigation bar, skills section, brief About Me and Portfolio sections, footer.

- **Portfolio/About Me**: Detailed bio, past experience/education, skills section.

- **Contact**: Contact form, contact info.

Flow:

- Homepage → About Me → Portfolio → Contact.

2. Annotations/Process:

- Have the navigation at the top for user ease of access (in case they misclick, they won't have to scroll through the whole page just to go back).

- Clear sections that can be differentiated with different info in each section

- A layout that isn't too wordy, words are sectioned appropriately
